

School Management System Sequence Diagram Documentation

Actors:

- **Admin** – Responsible for student and staff enrollment.
- **Teacher** – Handles student attendance and performance evaluation.
- **Principal** – Monitors student and teacher performance.
- **Accountant** – Manages student fees and staff salaries.

System Components:

- **School Management System (SMS)** – Central system handling all operations.
 - **Database (DB)** – Stores all data related to students, staff, attendance, performance, and finance.
-

Interactions & Flow:

1. **Student Enrollment (Admin)**
 - Admin sends a request to SMS for student enrollment.
 - Database confirms storage to SMS.
 - SMS notifies Admin that enrollment was successful.
2. **Keep Student Attendance (Teacher)**
 - Teacher sends attendance data to SMS.
 - Database confirms data storage.
 - SMS sends confirmation to Teacher.
3. **Evaluate Student Performance (Teacher)**
 - Teacher sends performance evaluation to SMS.
 - SMS stores evaluation in the database.
 - Database confirms that evaluation has been stored.
4. **View Student Performance (Principal)**
 - Principal requests student performance report from SMS.
 - Database returns the requested data.
 - SMS displays the report to the Principal.
5. **Manage Student Finance (Accountant)**
 - Accountant sends finance update request to SMS.
 - Database confirms the update.
 - SMS notifies Accountant of successful update.
